Inside this document

Permission rules 1-12 with how each appears on screen

20 updated screens, each with the rule numbers it enforces

Notes on backend integration and decisions

Colours, sidebar, typography and components follow the approved designs. Only missing or inconsistent parts changed.

Admin: what the rules say and what the screens show

#	Action	Matrix rule	Status	Where it shows in the UI
1	**Sign in and view own profile**	Yes	ALLOWED	Footer shows the account and role. Disabled accounts cannot sign in.
2	**Upload documents**	No, by default	DENIED	Removed: no Upload menu item or button.
3	**Search and list documents**	Only documents they are authorized to discover	CONDITIONAL	Search and Shared with me list only explicitly granted documents.
4	**Read/open a document**	Only with explicit access	CONDITIONAL	Open on Shared with me. No grant gives Document not found.
5	**Download a document**	Only with explicit access	CONDITIONAL	Download only where a grant exists.
6	**Edit a document**	Only with an explicit Edit grant	CONDITIONAL	Edit only on a row with an Edit grant.
7	**Delete a document**	No, by default	DENIED	Removed: no Delete control.
8	**Share a document**	No, by default	DENIED	Removed: no Share or Grant access.
9	**Revoke another user's access**	No, by default	DENIED	Removed: no Revoke or Access tab.
10	**View global audit logs**	Yes	ALLOWED	Audit log under ADMIN ONLY. Metadata only.
11	**View activity on owned documents**	Yes, through the global audit view	ALLOWED	Audit log filters by action, user, result and date.
12	**Create users, change roles, disable accounts**	Yes, as an additional administrative feature	ALLOWED	Users page: Add user, Change role, Disable or Enable with confirmation.

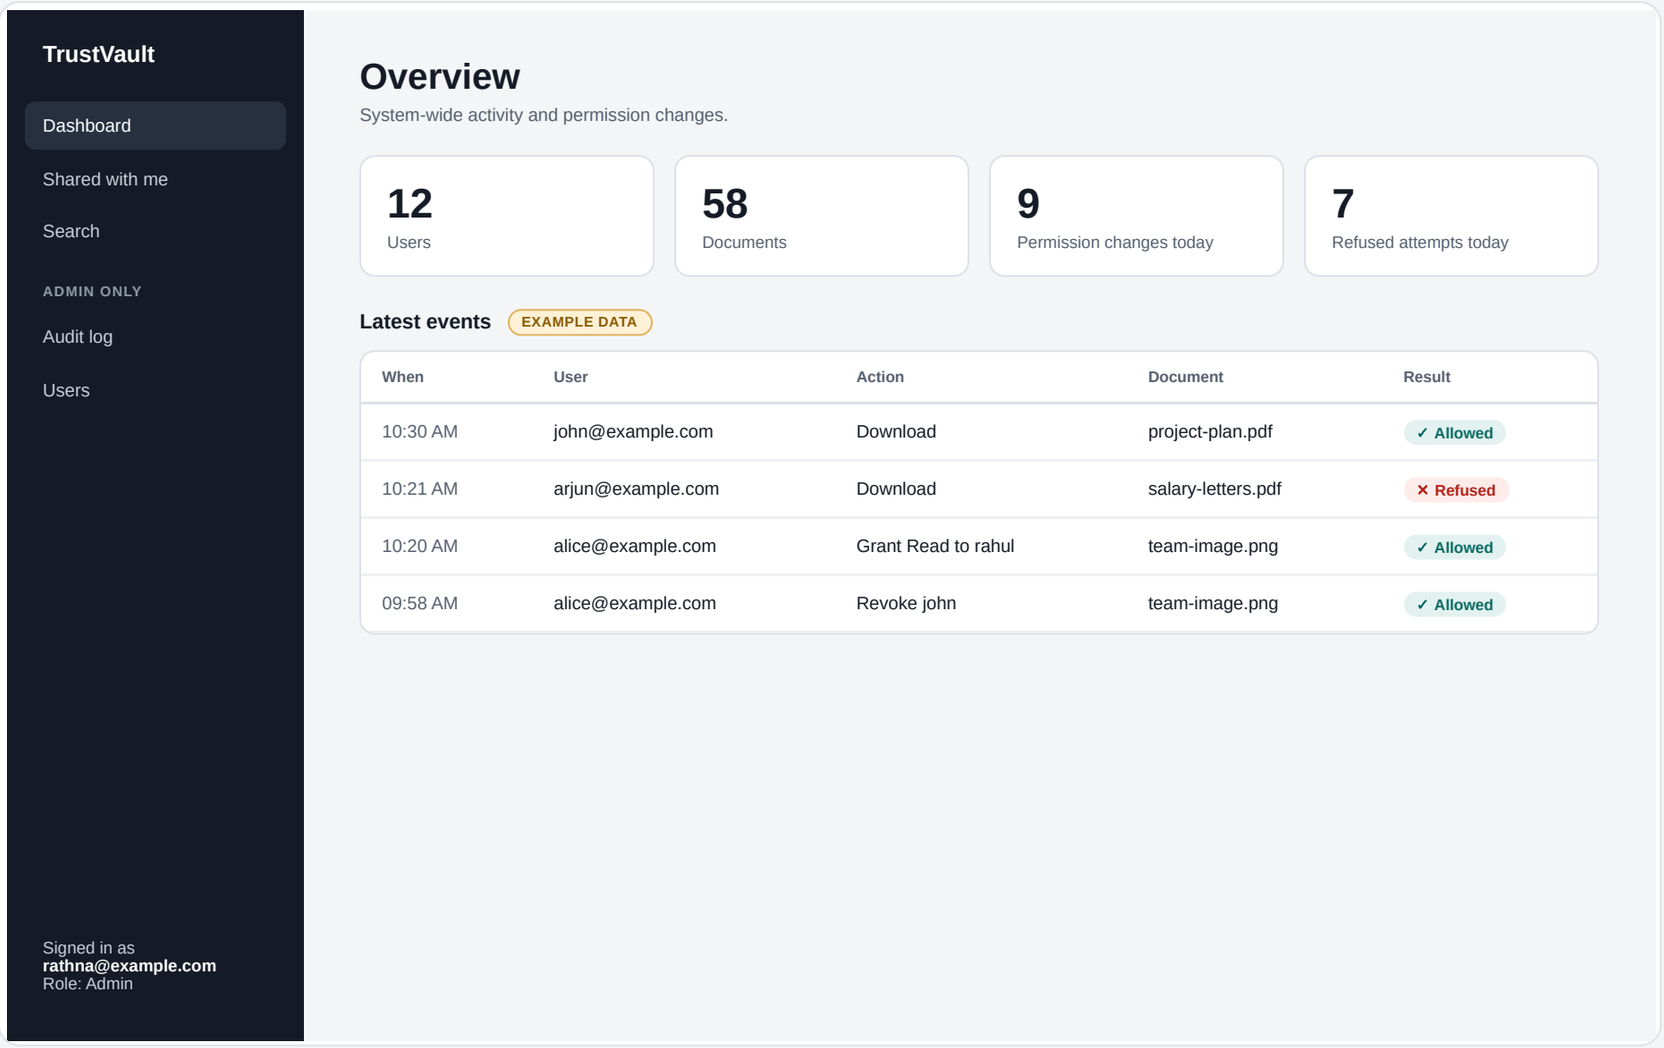

Screens changed or added in v3

Screen	Title	Status	Correction
1	**Dashboard (system overview)**	CHANGED	Example-data label added. Counters no longer mix in My documents.
2	**Authorized documents (restricted actions)**	CHANGED	Unchanged from v2. Files are PDF, JPEG or PNG only.
4	**Users**	CHANGED	Add user and Change role now open the flows on the next screens.
5	**Add user**	ADDED	New: name, email, role (Viewer or Document Owner only).
6	**Add user: validation errors**	ADDED	New: required-field and invalid-email errors.
7	**Add user: duplicate email**	ADDED	New: duplicate-email error from the server.
8	**Add user: creating**	ADDED	New: loading state with buttons disabled.
9	**Add user: failure**	ADDED	New: operation-failure state.
10	**Add user: success**	ADDED	New: success after the server confirms.
11	**Change role**	ADDED	New: names the account, shows current and new role.
12	**Change role: rejected**	ADDED	New: rejected change with a useful reason.

Screens changed or added in v3

Screen	Title	Status	Correction
13	**Change role: success**	ADDED	New: success after the server confirms.
15	**Disable rejected: self or last Admin**	CHANGED	Message now says the server rejected it.
17	**Audit log**	CHANGED	Integrity shown as Not verified. Example-data label added. Metadata-only wording extended to passwords and session tokens.

Dashboard (system overview)

RULES ENFORCED HERE

#10 View global audit logs
Global log is Admin only.

#1 Sign in and view own profile
Footer shows account and role.

WHAT CHANGED

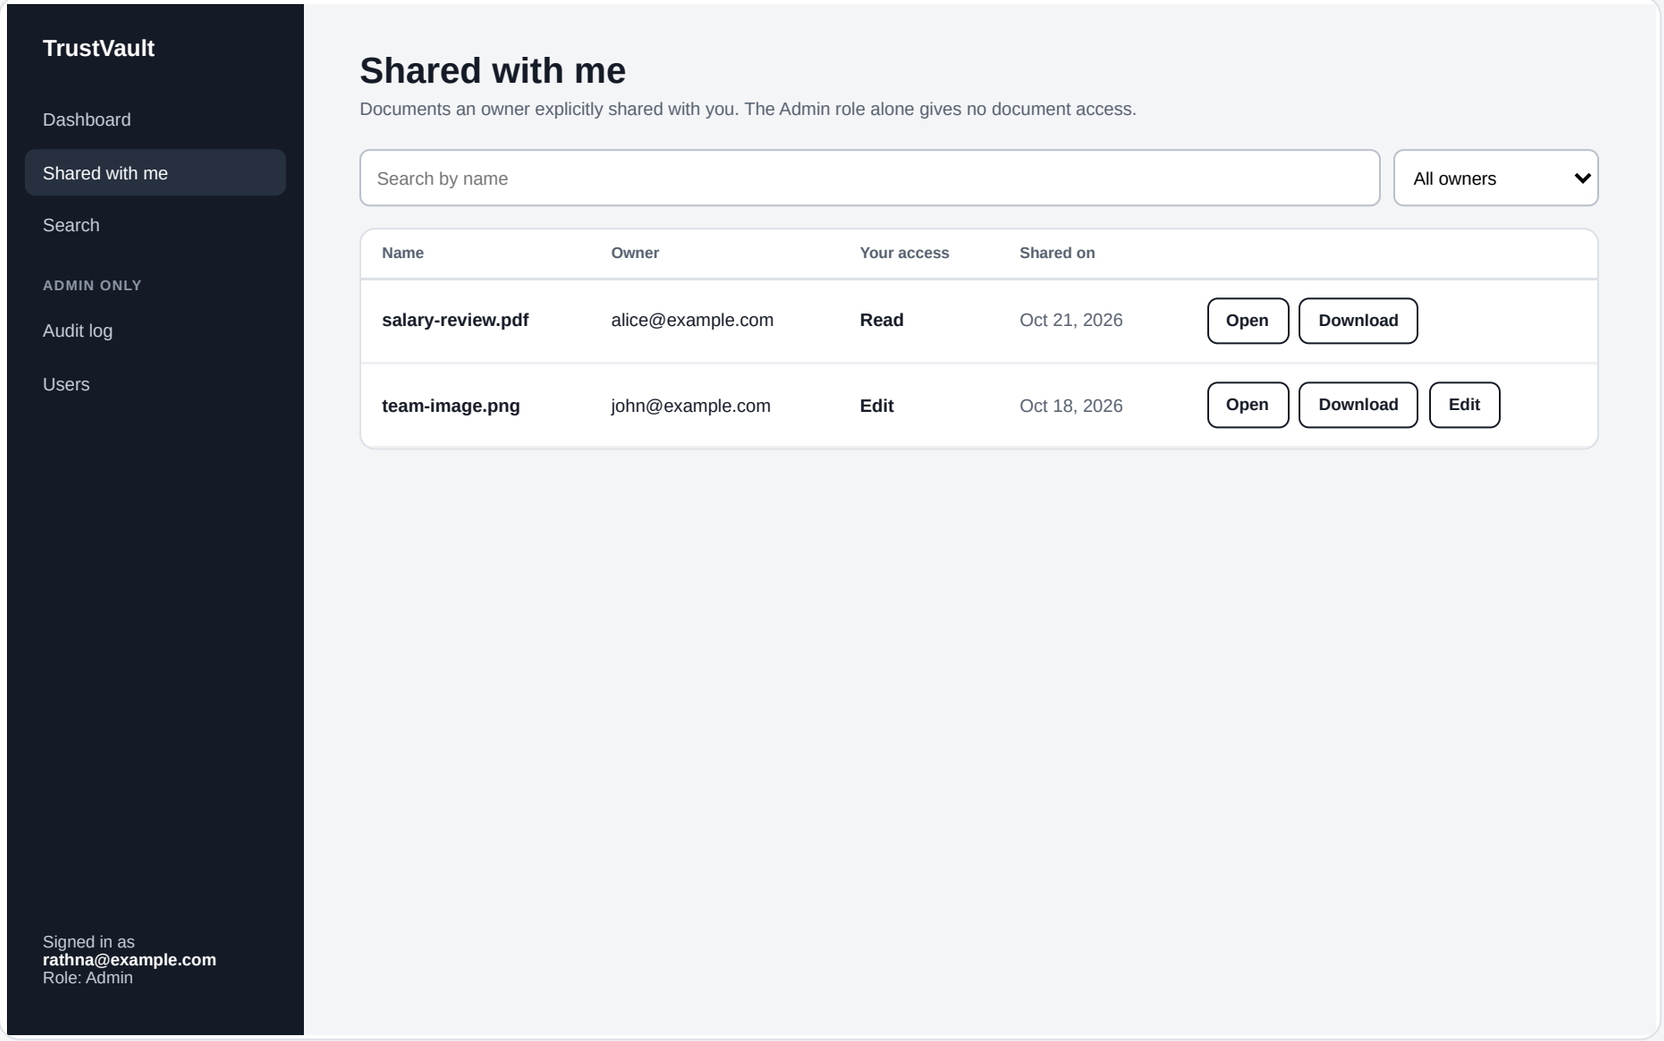

Example-data label added. Counters no longer mix in My documents.

ON THIS SCREEN

- Metadata only
- Refused attempts visible

Note: Counters and events are examples. Real values come from the API.

Authorized documents (restricted actions)

RULES ENFORCED HERE

#3 Search and list documents
Granted documents only.

#4 Read/open a document
Open needs a grant.

#5 Download a document
Download needs a grant.

#6 Edit a document
Edit only on the Edit-grant row.

#2 Upload documents
No Upload.

#7 Delete a document
No Delete.

#8 Share a document
No Share.

#9 Revoke another user's access
No Revoke.

WHAT CHANGED

Unchanged from v2. Files are PDF, JPEG or PNG only.

ON THIS SCREEN

- Edit only on team-image.png (Edit grant)
- No ownership exception

Note: The API must still refuse these calls for Admins.

ADMIN ONLY

Audit log

Users

Signed in as
rathna@example.com
Role: Admin

Users

New sign-ups start as Viewer. Admins create accounts and set roles. Disabling ends sessions at once.

Add user

Name	Email	Role	Status	
Rathna Bhushanam (you)	rathna@example.com	Admin	Active	Change role · Disable
Alice Johnson	alice@example.com	Owner	Active	Change role · Disable
John Doe	john@example.com	Owner	Active	Change role · Disable
Arjun Rao	arjun@example.com	Viewer	Disabled	Change role · Enable

RULES ENFORCED HERE

#12 Create users, change roles, disable accounts
Add user, Change role, Disable or Enable.

WHAT CHANGED

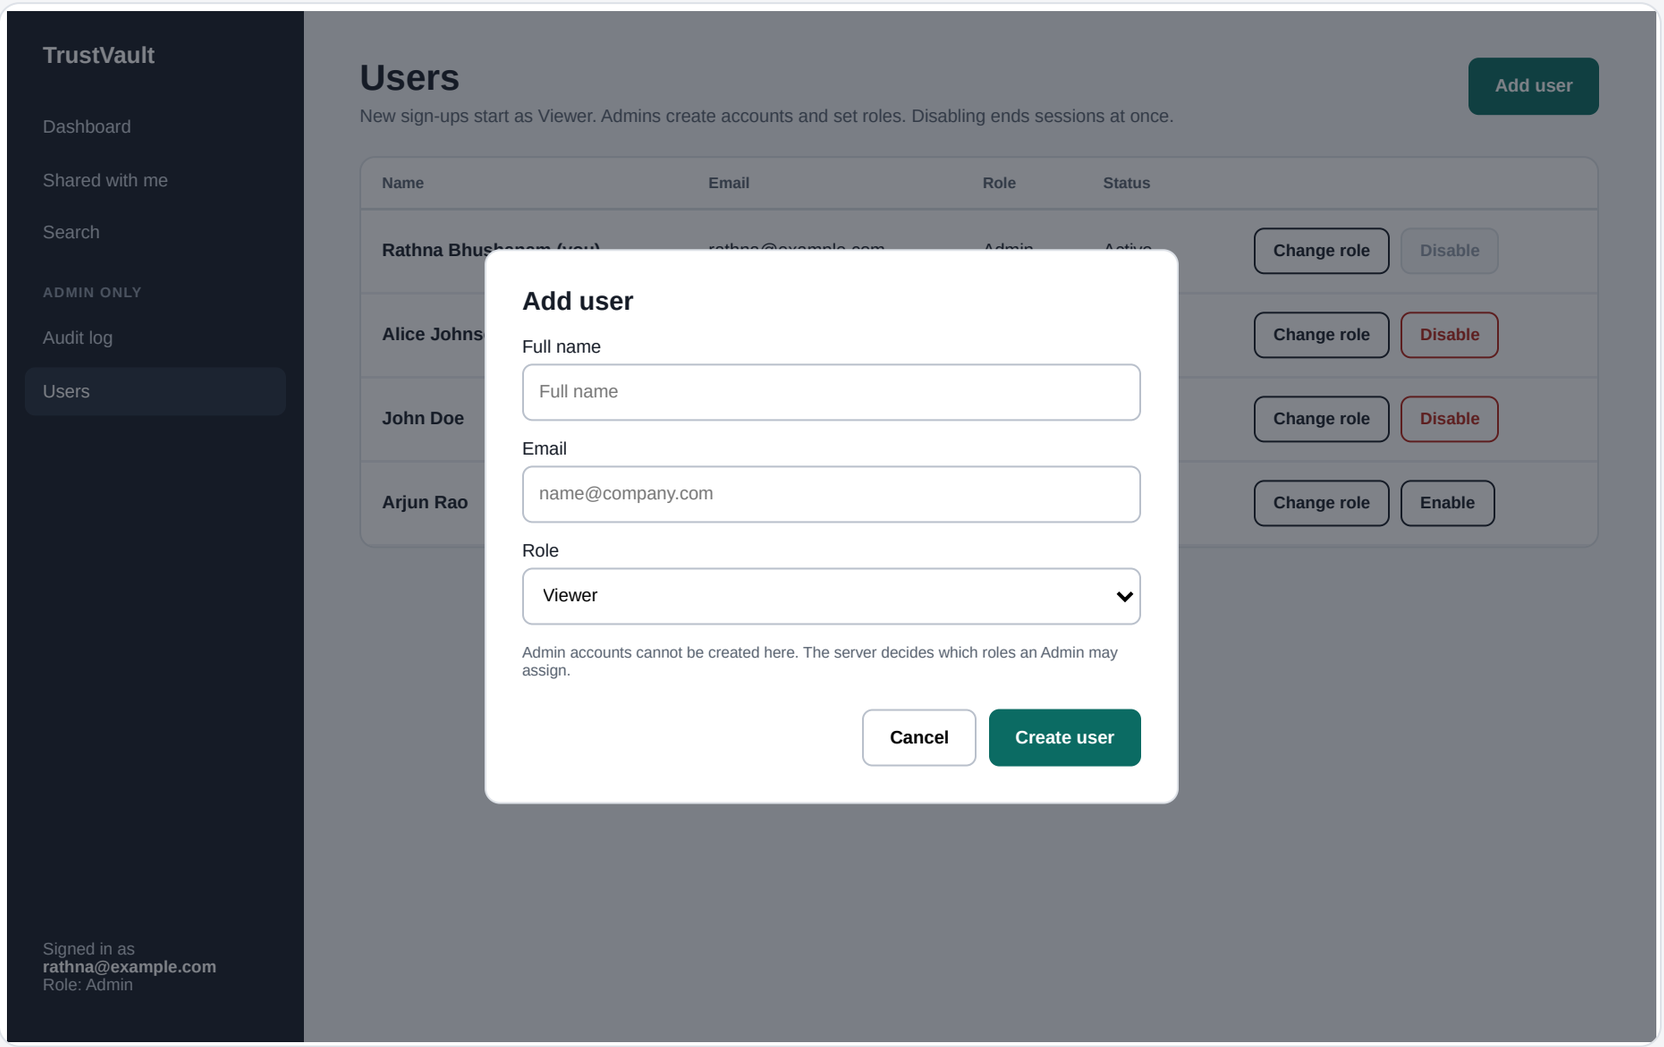

Add user and Change role now open the flows on the next screens.

ON THIS SCREEN

- Disabled accounts show Enable
- Own account cannot be disabled

Note: Restrictions are enforced by the server, not by the greyed button.

Add user

RULES ENFORCED HERE

#12 Create users, change roles, disable accounts
Create users.

WHAT CHANGED

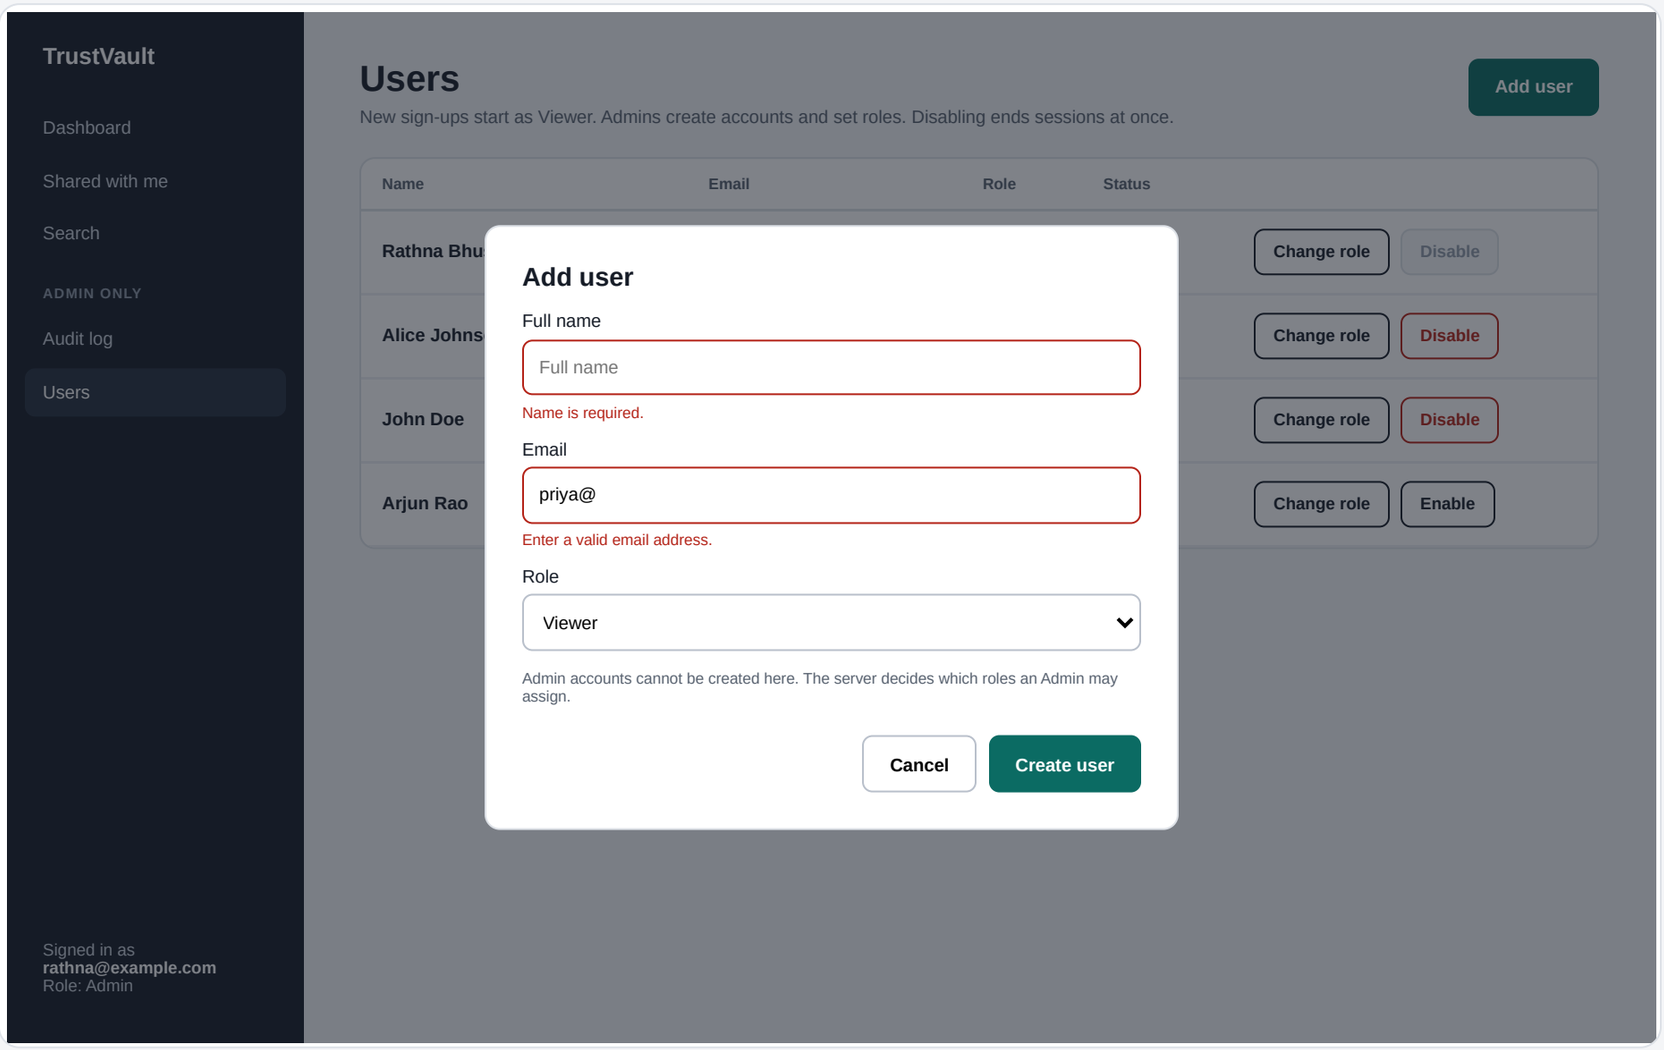

New: name, email, role (Viewer or Document Owner only).

ON THIS SCREEN

- Create user and Cancel
- Admin role is not offered

Note: Admin accounts cannot be created here. The server decides which roles an Admin may assign. Initial credential handling needs a backend decision.

Add user: validation errors

RULES ENFORCED HERE

#12 Create users, change roles, disable accounts
Create users.

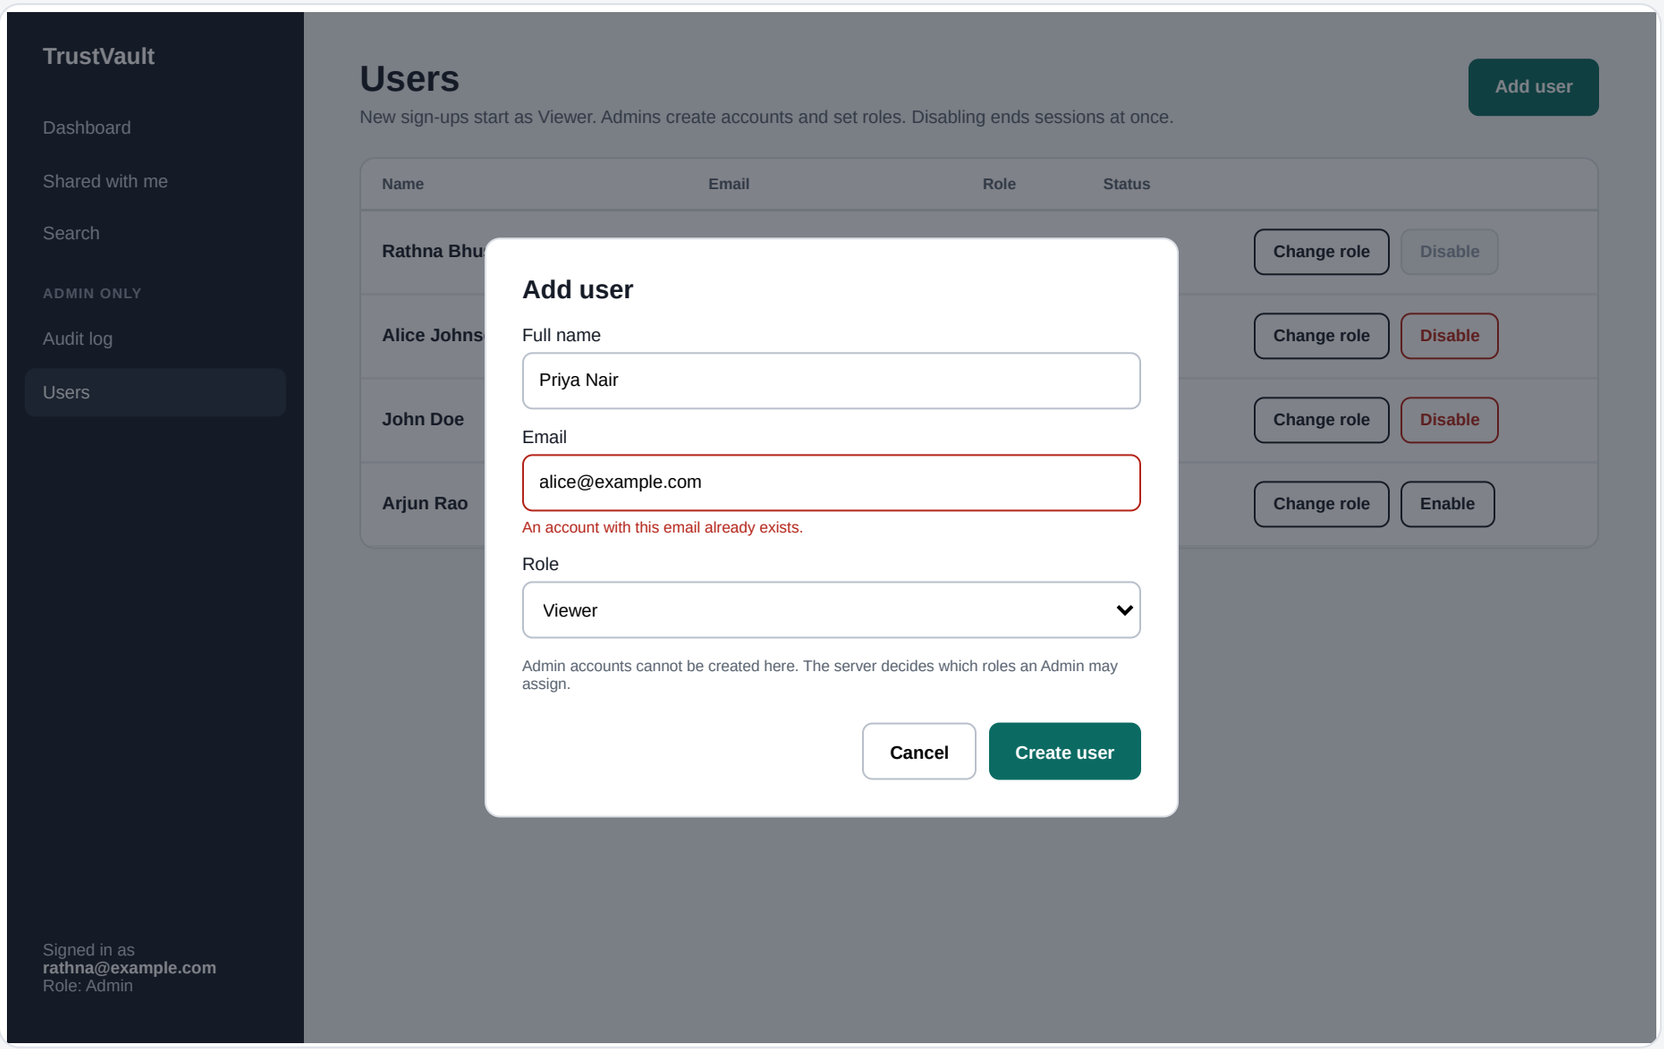

WHAT CHANGED

New: required-field and invalid-email errors.

ON THIS SCREEN

- Errors sit under each field

Add user: duplicate email

RULES ENFORCED HERE

#12 Create users, change roles, disable accounts
Create users.

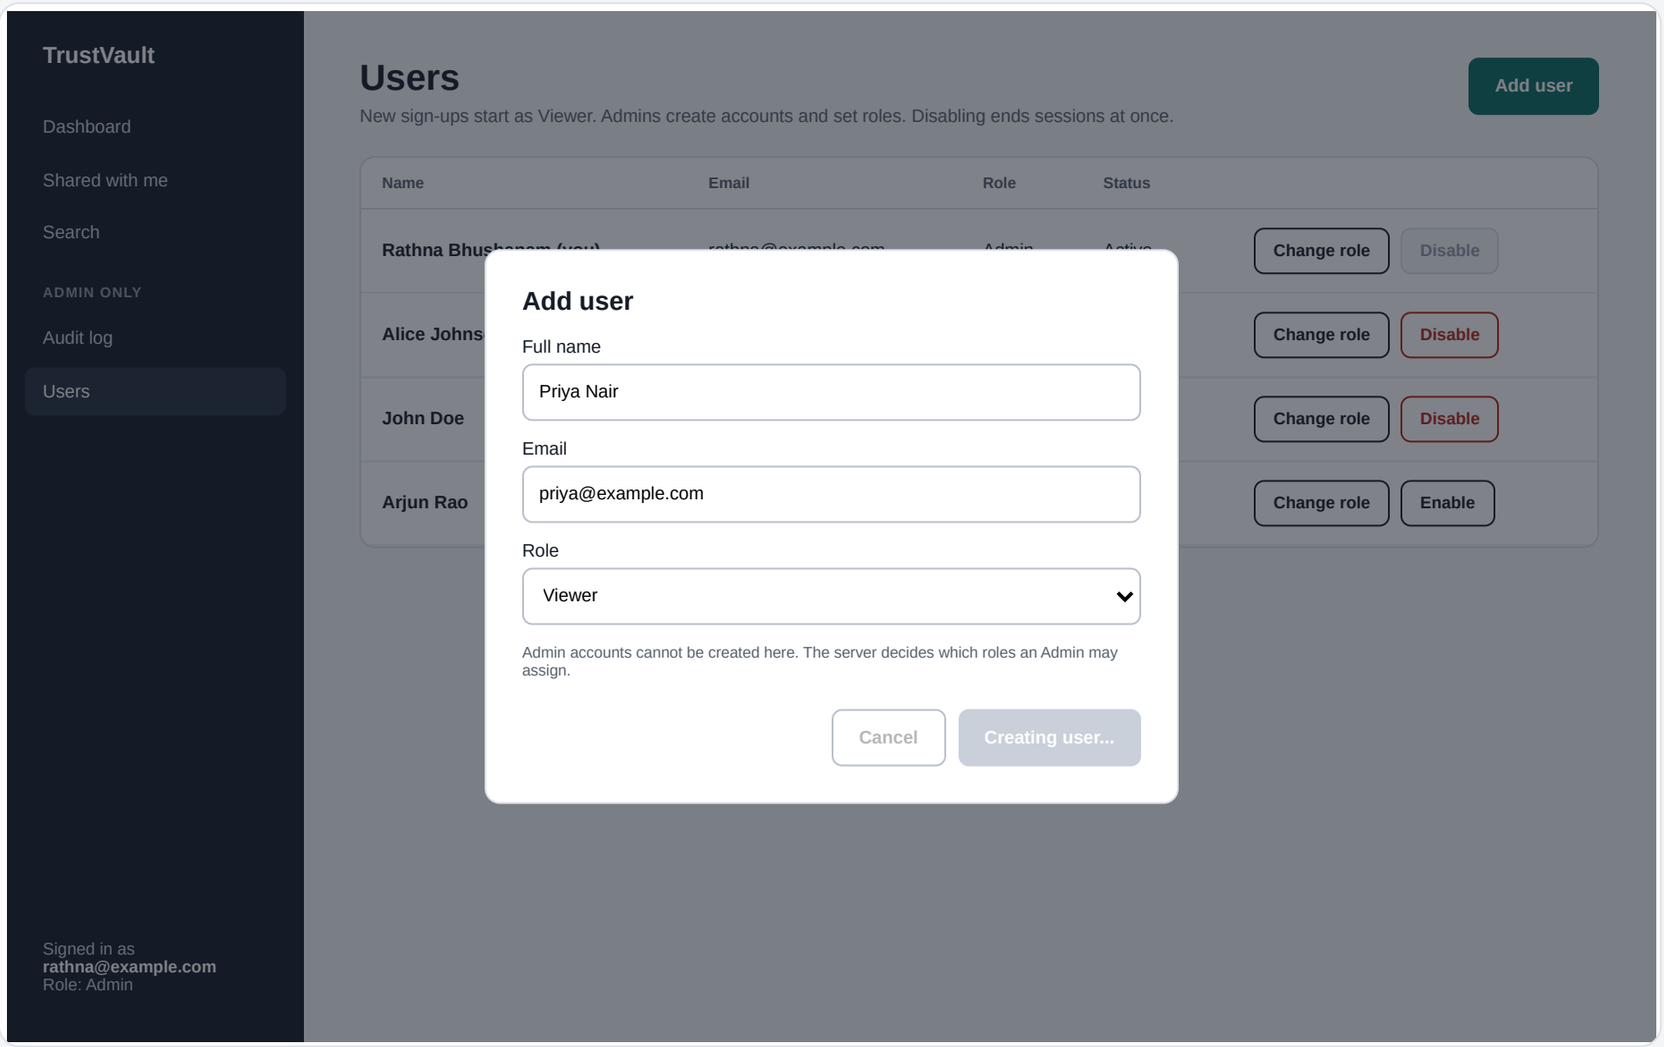

WHAT CHANGED

New: duplicate-email error from the server.

ON THIS SCREEN

- Message reflects the server response

Add user: creating

RULES ENFORCED HERE

#12 Create users, change roles, disable accounts
Create users.

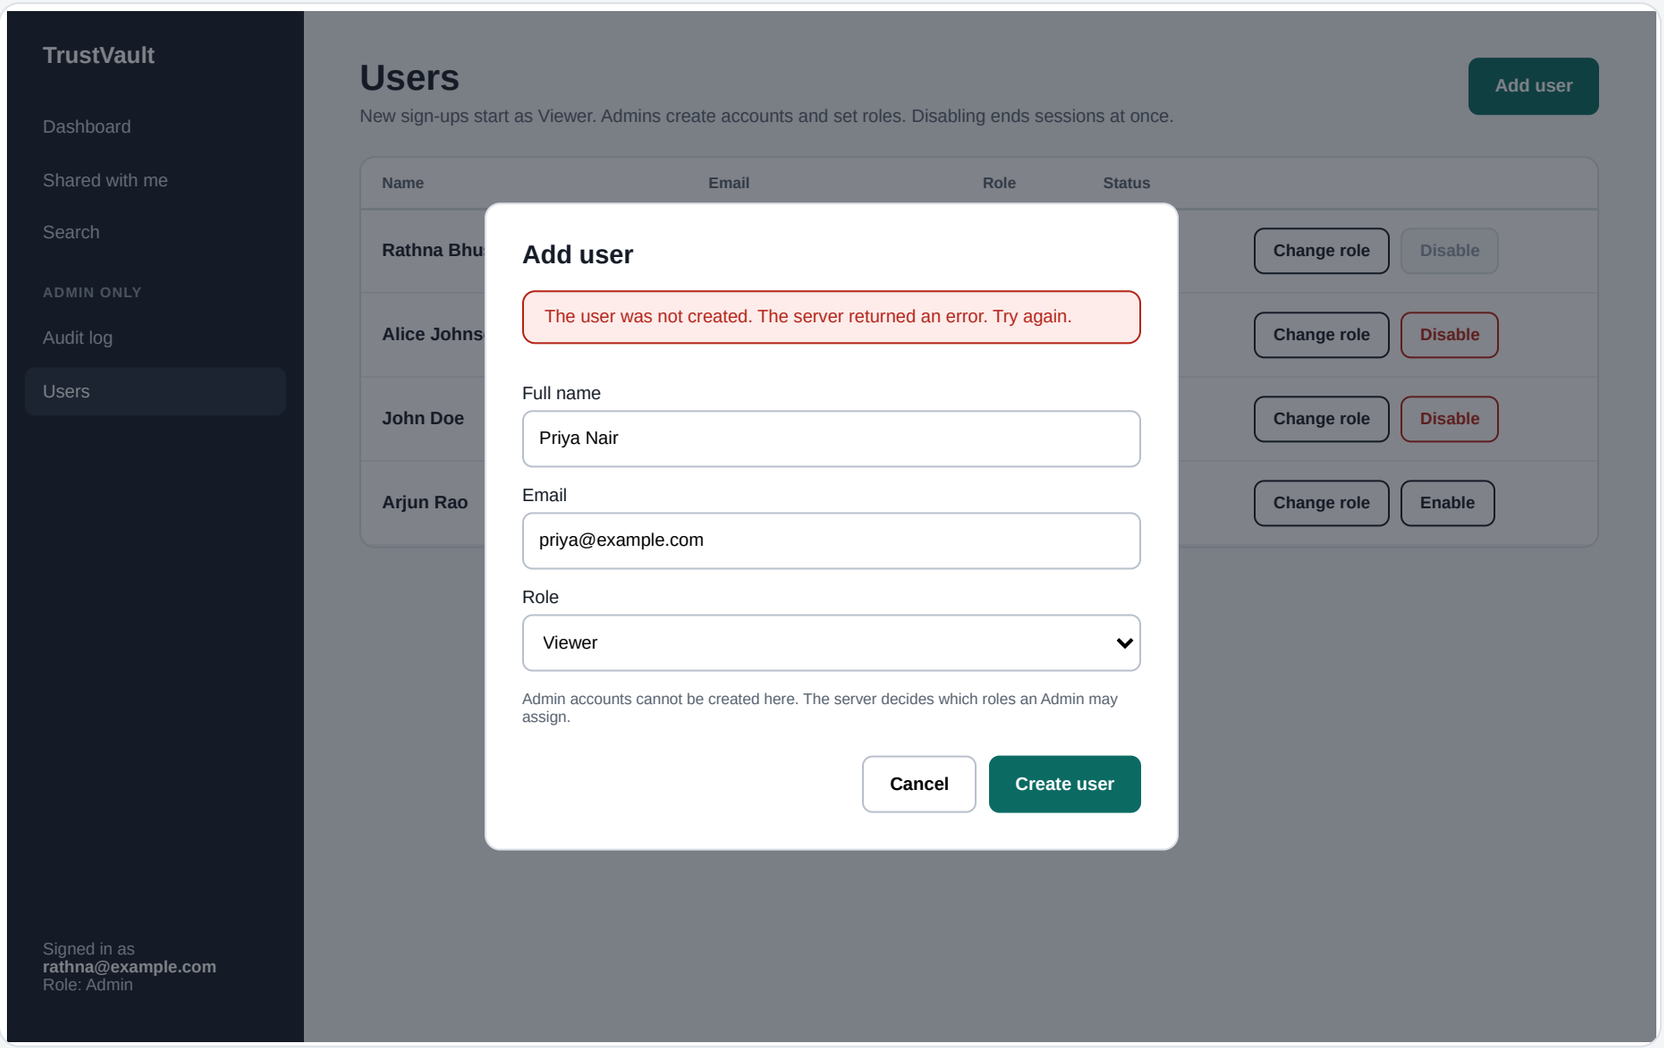

WHAT CHANGED

New: loading state with buttons disabled.

ON THIS SCREEN

- No double submit

Add user: failure

RULES ENFORCED HERE

#12 Create users, change roles, disable accounts
Create users.

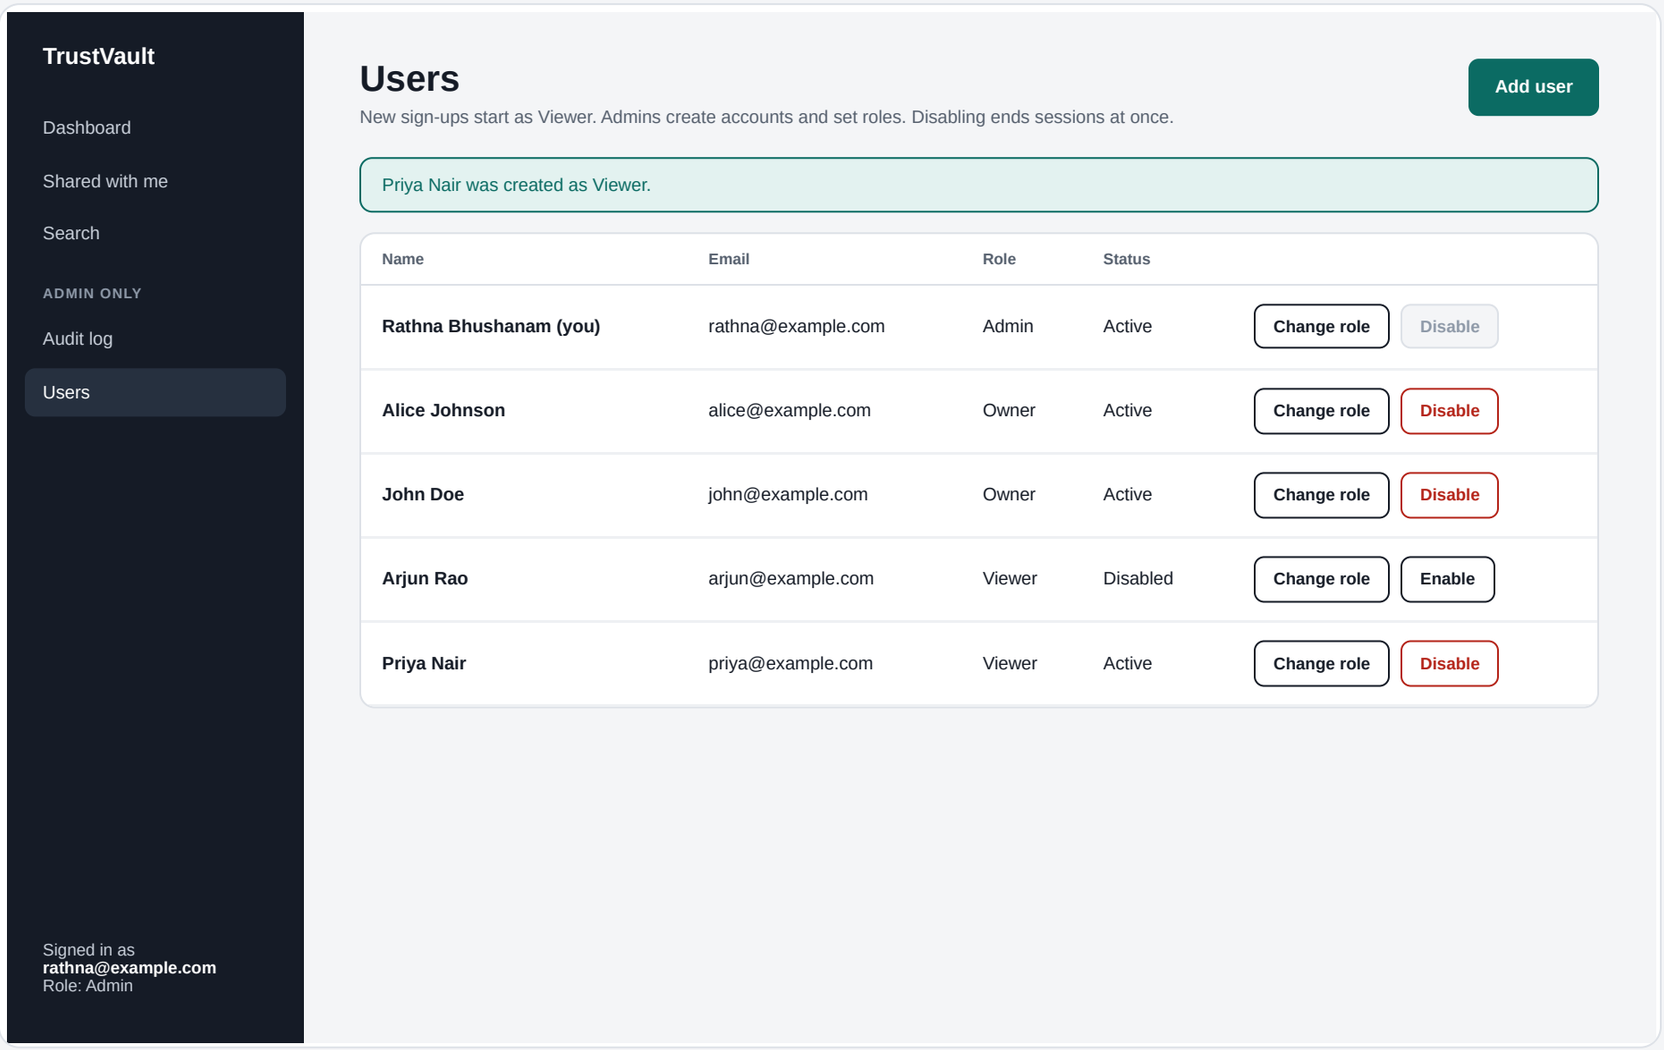

WHAT CHANGED

New: operation-failure state.

ON THIS SCREEN

- Form stays open for retry

Add user: success

RULES ENFORCED HERE

#12 Create users, change roles, disable accounts
Create users.

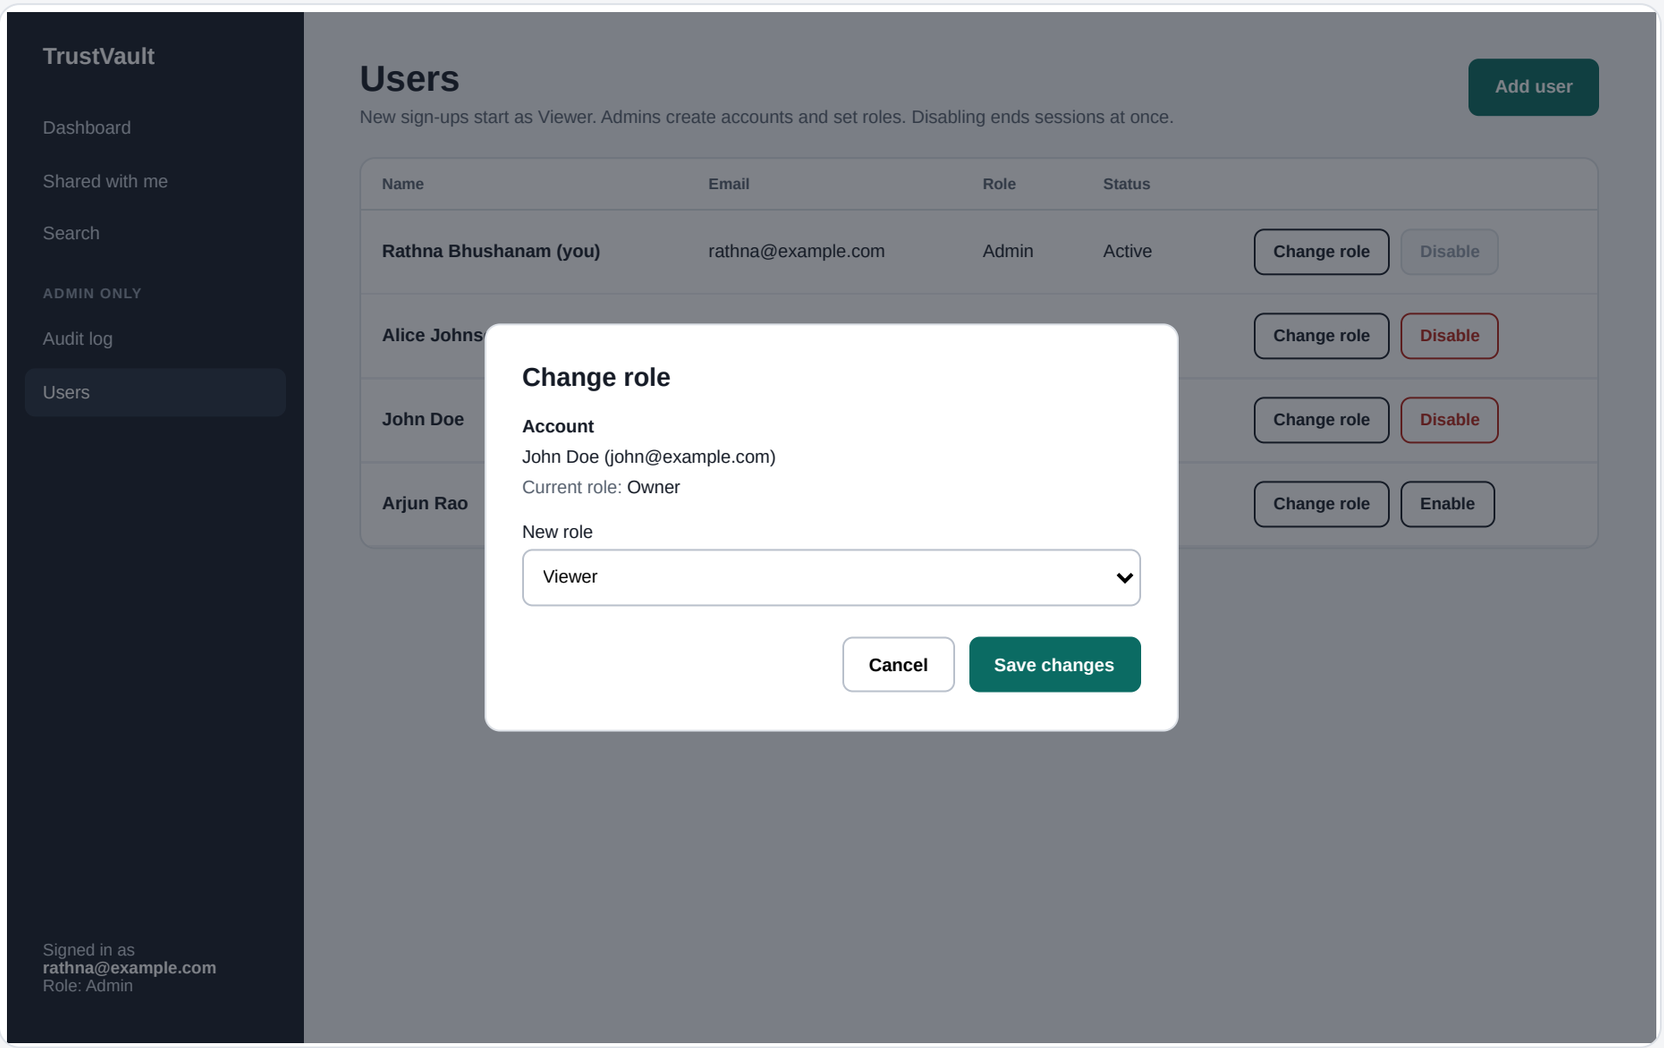

WHAT CHANGED

New: success after the server confirms.

ON THIS SCREEN

- New row appears in the list

Change role

RULES ENFORCED HERE

#12 Create users, change roles, disable accounts
Change roles.

WHAT CHANGED

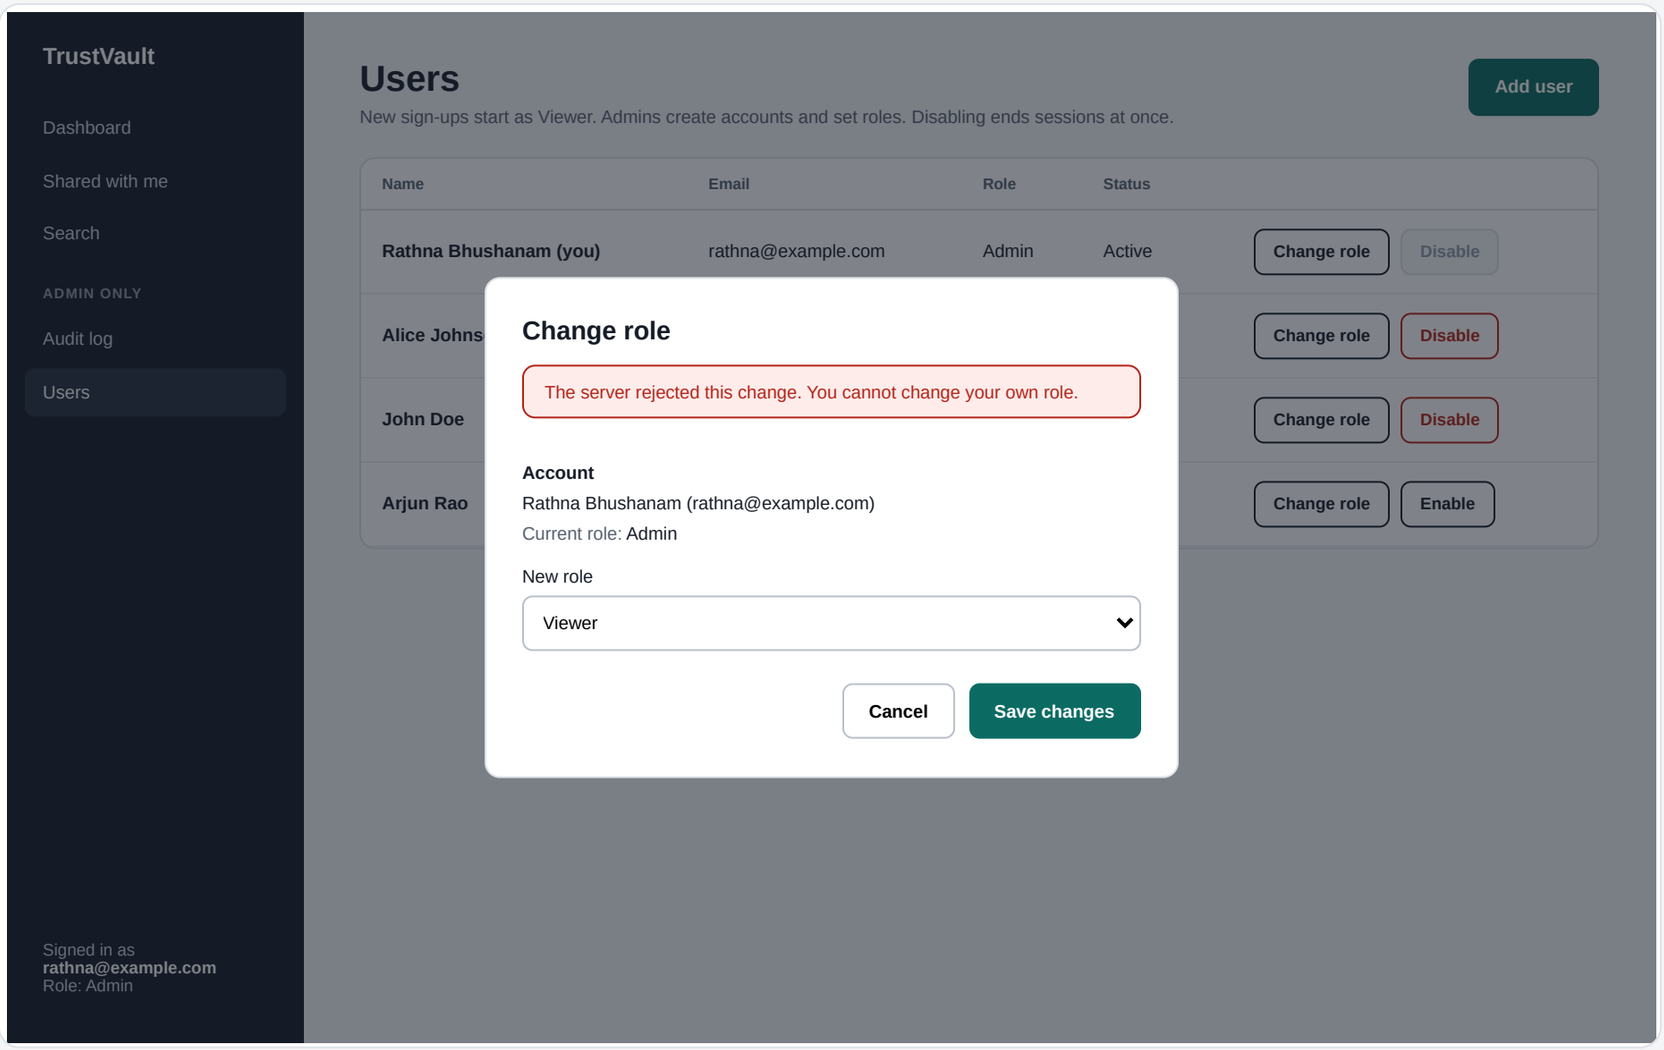

New: names the account, shows current and new role.

ON THIS SCREEN

- Only assignable roles listed

Note: Admin accounts cannot be created here. The server decides which roles an Admin may assign.

Change role: rejected

RULES ENFORCED HERE

#12 Create users, change roles, disable accounts
Role changes are protected.

WHAT CHANGED

New: rejected change with a useful reason.

ON THIS SCREEN

- Dialog stays open

Note: Server-enforced rule.

Change role: success

Audit log EXAMPLE DATA

Append-only record. Metadata only: never document contents, passwords or session tokens.

WORTH A LOOK
arjun@example.com was refused 2 times in 1 minute

INTEGRITY: NOT VERIFIED
Shows the real status once the backend provides it.

All actions | All users | All results | Date range

Time	User	Action	Document	Result
10:30 AM	john@example.com	Download	project-plan.pdf	✓ Allowed
10:21 AM	arjun@example.com	Download	salary-letters.pdf	✕ Refused
10:20 AM	alice@example.com	Grant Read to rahul	team-image.png	✓ Allowed
09:58 AM	alice@example.com	Revoke john	team-image.png	✓ Allowed
09:41 AM	rahul@example.com	Edit	report.pdf	✕ Refused

RULES ENFORCED HERE

#10 View global audit logs
Admin only.

#11 View activity on owned documents
Filters: action, user, result, date.

WHAT CHANGED

Integrity shown as Not verified. Example-data label added. Metadata-only wording extended to passwords and session tokens.

ON THIS SCREEN

- Refused attempts have a Refused badge

Note: Rows are examples. Integrity status must come from the backend.

States

Loading, empty, access and session states.

LOADING

EMPTY SHARED LIST

No documents shared with you

An owner must grant you access first.

DOCUMENT NOT FOUND

Document not found

It may not exist, or you may not have access.
The message is the same either way.

SESSION EXPIRED

Your session has ended. Sign in again to continue.

DISABLED ACCOUNT (SIGN-IN)

This account is disabled. Contact an administrator.

ADMIN ROUTE REFUSED

Page not found

Non-admin accounts see this for Admin routes.

RULES ENFORCED HERE

#4 Read/open a document
Neutral not-found.

#1 Sign in and view own profile
Disabled accounts cannot sign in.

WHAT CHANGED

Unchanged.

ON THIS SCREEN

- Reuses banner and card styles

Checklist: rules mapped to screens

#	Action	Status	Screens that show or enforce it
1	**Sign in and view own profile**	ALLOWED	1, 20
2	**Upload documents**	DENIED	2
3	**Search and list documents**	CONDITIONAL	2, 18, 19
4	**Read/open a document**	CONDITIONAL	2, 3, 20
5	**Download a document**	CONDITIONAL	2, 3
6	**Edit a document**	CONDITIONAL	2, 3
7	**Delete a document**	DENIED	2, 3
8	**Share a document**	DENIED	2, 3
9	**Revoke another user's access**	DENIED	2
10	**View global audit logs**	ALLOWED	1, 17
11	**View activity on owned documents**	ALLOWED	17
12	**Create users, change roles, disable accounts**	ALLOWED	4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16

No screen offers Upload, Share, Grant, Delete or Revoke to an Admin. An Edit grant never gives Delete, Share, Grant or Revoke.

Notes: decisions and backend integration

Not built in the UI
Admin cannot be assigned from Add user or Change role. If the backend allows promoting to Admin, add it behind an extra confirmation.

Server-enforced rules
Self-disable, self role change and last-active-Admin protection must be rejected by the server. Greyed buttons are only hints.

Add user
Initial credentials or invitation handling is not specified. Requires backend decision.

Audit integrity
Shown as Not verified until the backend returns a real verification result.

Example data
Screens marked EXAMPLE DATA show design samples, not real events.

Removed controls
Every removed Admin control must still be refused by the API.
